

Diversified Learning Opportunities in and beyond the Classroom

Learning through Play in P.1

Our teachers have created an active and pleasurable English learning environment in P.1 classrooms. We had fun engaging in playful station activities based on the theme, *Pets*.

Atelier: In this station, we watched videos on iPads and learned to draw a pet ourselves.

Book Nook: In this station, we read a book with Mr Michael about pets and finished a book report to share our creative ideas!

Small Word Play: In this station, we role played with Mr Peter at a Pet Café. We described the pet we liked with confidence!

Cross-curricular Learning Week

We participated in a wide range of theme-based English activities during the Cross-curricular Learning Week. We had the opportunity to apply the knowledge, skills and attitudes acquired from various subjects to accomplish specific tasks. We were fully immersed in these joyful learning experiences and were so proud to present our fabulous work!

Dad drank the juice. Mum ate sandwiches. I ate an apple. After that, I played with my dog and we ran in the park. Then, I flew a kite with Dad. The kite flew very high in the sky. I was happy.

By Chu Tsz Ming (5B)

For the Chinese dance, James has already prepared the costumes but Niyah has not chosen the music yet.

For making Chinese dumplings, Spidey has not prepared any cooking utensils yet but Niyah has already borrowed some cookbooks and bought some ingredients.

For making Chinese lanterns, Ken has not bought the coloured cord but I have already borrowed enough scissors and prepared some coloured paper.

We are working hard to ensure everything will be ready on Chinese Culture Day.

Two Good Habits that I Want to Develop

By Lau Cheuk Yin Louis (6B)

I'm going to develop two good habits to make me a better person.

I ought to eat my breakfast every day because it gives me energy to stay awake; otherwise, I may feel sleepy throughout the day. I've thought of a way to help me develop this good habit. To have enough time for eating breakfast, I need to wake up earlier in the morning from now on.

I ought to finish my homework on time so that my schoolwork won't accumulate and I will have more time to study. I think it's not too difficult to develop this good habit. I will set a timetable for myself to ensure I have sufficient time to finish my homework before I go to bed every day.

I hope I can successfully develop these two good habits.

Let's Help Tanaka School

By Leung Chun Wai (6D)

It's very sad to hear about the earthquake in Japan. Many teachers and students in Tanaka School were injured. Let's do something to help them.

Firstly, we can hold a cake and biscuit sale. We will raise some money to donate to Tanaka School so that the campus can be rebuilt quickly.

Students in Tanaka School will have books to read if we donate the old books to them. Therefore, we can collect some old books from our

school library and give those books to the students.

To help them spend their time wisely during the school reconstruction, each class in our school may donate a piece of sports equipment, for example, badminton rackets and basketballs. We will be able to send about 20 pieces of sports equipment for them to exercise.

We should show our care and love to people in need. Let's take action as soon as possible! Those students are waiting for our help!

My Favourite Chinese Invention

By Chau Lok Tung (4A)

I think the most important Chinese invention is movable type printing technology. The inventor was Bi Sheng. It was invented in the 11th Century A.D. I think it is important because it helped the spread of knowledge. Before movable type, every page of a book was carved as a big block that could only print that page. With movable type, the cost of book production became much lower and books became much cheaper to print in large quantities.

He was famous because his teachings focused on creating ethical models of family and public interaction and setting important educational standards for people. I like Confucius because I agree with his belief that showing respect for others, especially our elders, can bring peace to society.

My Favourite Chinese Historical Architecture

By Wang Ziqi (6A)

My favourite Chinese historical architecture is the Great Wall of China. It is from Liaodong in the east to Lop Lake in the west of China. It was built from the 7th Century BC to the 17th Century.

The main purpose of the wall was to stop enemies from attacking. Besides, the wall was a place where troops lived. They could summon help if an enemy was approaching.

I like the Great Wall of China because it is magnificent and has a rich history.

Halloween Day

Our Halloween Day was held on 29th October, 2021. Surrounded by amazing Halloween decorations everywhere, our school was filled with a rich festive atmosphere. We watched campus TV shows and played interactive booth games! We had a great time!

Look! We dressed up as spooky vampires, cute princesses, evil witches, brave superheroes and so on.

Our principal, Miss Leung, surprised us by turning into Principal Witch and giving out candies. Yum!

The booth games were both educational and entertaining! We played "Trick or Treat" with our NETs too.

Christmas Activities

To celebrate the joyous occasion of Christmas, our school arranged a Christmas Party on 21st December, 2021. We wore fancy costumes and joined lots of fun activities, including booth games, photo booths and making Christmas decorations.

The Christmas party started with a magic show and an English Drama, followed by a lucky draw. It was a delightful Christmas party and all of us enjoyed every moment of that day.
